グローバル研究クラスタの活動

Speaker : **Dr. Kohei TAMAO**
(Director, RIKEN Global Research Cluster (GRC))

玉尾 皓平
(理研 グローバル研究クラスタ・クラスタ長)

The Global Research Cluster (GRC) is charged with strengthening RIKEN's institutional framework for joint research between individual scientists. Our missions are summarized as follows: (1) Strengthen researcher-level cooperation into institutional partnerships, (2) establish RIKEN facilities overseas, (3) invigorate research activities at both RIKEN and overseas facilities and (4) establish a super hub at RIKEN for global brain circulation. Current activities and some future plans will be discussed.
