

The 2nd RAP Edge Photonics Seminar

The RIKEN Center for Advanced Photonics (RAP) launches an open seminar series exploring emerging frontiers in photonics. The series covers cutting-edge topics. Everyone from RAP and beyond is welcome to join discussions on recent advances, challenges, and future directions.

Language: Japanese

Title: Attosecond electron beams for visualizing electronic motion

Dr. Yuya Morimoto

RIKEN Hakubi Team Leader, PRI&RAP, RIKEN

Title: Ultrafast optoelectronics in van der Waals heterostructures enabled by THz electronics

Dr. Katsumasa Yoshioka

Associate Distinguished Scientist, Basic Research Laboratories, NTT, Inc.

Date & Time: June 15 (Mon) 15:00 -17:00, 2026

Place: Coop. Center W524-525, Wako Campus, RIKEN

RIKEN Center for Advanced Photonics (RAP)
